FOCUS
Frontend & Full-Stack Web

Dawid Frankowicz

FRONTEND / FULL-STACK DEVELOPER

Computer Science Engineer focused on frontend development with React, Next.js and TypeScript. I build responsive, maintainable and well-tested web applications, with experience across APIs, databases, payments, authentication and production deployment.

SELECTED PROJECTS

AI Image Toolkit

ai.dawidfrankowicz.com

Built and deployed a production-style SaaS image platform with authentication, payments, AI transformations and persistent user projects.

Implemented idempotent Polar webhook processing using database transactions and unique constraints to prevent duplicate credit fulfillment.

Added frontend and backend tests, production error monitoring and CI workflows to improve reliability and maintainability.

Next.js | TypeScript | Better Auth | Prisma | PostgreSQL | ImageKit | Polar

MyHikes

myhikes.dawidfrankowicz.com

Developed a full-stack hiking platform with a Node/Express REST API, JWT authentication, MongoDB persistence, multi-image uploads, geocoding, maps and search.

Added automated backend/API tests for authentication, authorization, password reset, validation and security, with coverage and GitHub Actions CI.

React | Node.js | Express | MongoDB | JWT | Supertest | GitHub Actions

Technology Blog

blog.dawidfrankowicz.com

Built a deployed content platform with authentication, admin features, CRUD workflows, search, pagination and external file storage.

Next.js | React | MongoDB | Clerk | Firebase Storage
